

SPECIFICATION SHEET: SYSTEM 1700, ARCH FORM UNITS

Components for Arch Form Units providing hanging space for outdoor garments. Although the Arch Form components have been designed for the Vedette Five Compartment 450 mm deep unit, they can be fitted to all multi-compartment lockers of 450 mm depth.

Key Features

Functional: Space efficient coat rack for hanging garments, allowing maximum ventilation.

Sturdy Construction:

Heavy gauge mild steel hanger shelf, heavy gauge mild steel square tube stabilising bar ensure strength and rigidity.

Coat Hanging Options:

Plastic coated mild steel captive coat hanger with option of Coatlok System for locking garments.

Arch Form Unit Components

Hanger Shelf: Manufactured from heavy gauge mild steel sheet. This provides a dust cover/parcel shelf with a 16 mm diameter tubular hanger rail underneath. Dimensions: 850 mm long x 429 mm deep. Colour: Standard locker body colour.

Stabilising Tie Bar: Manufactured from heavy gauge mild steel square tube of welded construction. Used in conjunction with the hanger shelf, this unit gives a rigid Arch Form construction. Colour: Standard locker body colour.

OPTIONAL EXTRAS:

The following can be supplied at an additional cost and, if included, will be specified in the quotation.

Sloping Tops: Hanger shelves can be fitted with a sloping top to match adjacent sloping top lockers.

Shoe Rail: Manufactured from heavy gauge mild steel rectangular tube of welded construction and round tubular section. This item is used in conjunction with the "H" frame and when required is welded to the "H" frame. Size: 850 mm long x 150 mm wide. Colour: Standard locker body colour.

Coatlok Bar: Size: 850 mm long. Manufactured from heavy gauge thick mild steel, it is designed to fit on to a hanger shelf and provide security for full length garments when used in conjunction with multi-compartment lockers. Each Coatlok Bar has 10 stations with locks, chrome plated chains and captive coat hangers. Method of Use: Coats or other garments are placed on to the captive coat hanger, the chrome chain is passed through the sleeve of the garment and then locked into place on the relative lock. Each lock on the coat bar is numbered to relate to user's locker compartment. Colour: To match locker body colour.

Installation: We offer a full installation service for its products.

- **Health & Safety: Lockers must be firmly secured to wall or floor and fixed together in runs for safety purposes. If applicable, install in accordance with specific product instructions.**
- **All dimensions are nominal.**
- **To enable us to interpret your requirements accurately, please state at time of enquiry/order the choice of locker type, colour, locking and nesting arrangement and delivery requirement.**
- **The products described in this specification sheet herein are the subjects of patent, trademark, design and copyright protection or application thereof.**
- **In the interest of efficiency and service to our customers, the company reserves the right to modify the specifications of any of its products.**
