

SPECIFICATION SHEET: SYSTEM 1900C, GARMENT COLLECTOR

Sizes available:

Height	Width	Depth
1820 mm	380 mm	450 mm

Strength and Security with Style

Sturdy Construction:	Door frame constructed from heavy gauge mild steel of press formed channel section.
Door Strength:	Supported by full length hinge.
Door Security:	Compartment fitted with 10 disc, tumbler cam lock.
Compartment Security:	Baffle plate to deter pilfering.
Style:	Attractive and functional locker design.
Colour:	Automated paint plant ensures consistent high quality finish in a wide range of modern colours.

Detailed Product Specification

Nesting:	All Garment Collectors are drilled to enable bolting together or to Garment Dispensers to suit your requirements.
Construction:	Spot welded and pop riveted.
Material & Finish:	Mild steel-Powder Coated.
Door Frame:	Manufactured from heavy gauge mild steel of welded construction.
Doors:	Doors are attached to the left hand side of door frame by a full length 8 mm diameter galvanised mild steel rod. The door has a full length vertical 'stiffener' to provide greater rigidity and at the top of the door there is an aperture 225 mm x 150 mm framed in heavy gauge angle section. This forms safety edges when depositing dirty workwear into the unit.
Bottom:	The bottom is formed as a 50 mm high inverted plinth with return bends at the bottom edge. Edges holed at front and back for fitting to stands.
Hooks:	Hooks for retaining soiled linen bags are fitted at two heights: a) 1290 mm from the base of the unit b) 760 mm from the base of the unit Located in the main body of the Collector is a stainless steel baffle plate immediately behind the dirty linen access aperture. This is designed to deter casual pilfering.
Locking:	The main frame is secured by a 10 disc tumbler cam lock.
Paint Finish:	Five stage automatic degreasing and phosphating process to remove surface contamination. This base gives improved adhesion and humidity resistance. The powder is electrostatically applied prior to oven baking at the appropriate temperature.
Colour Range:	Standard locker frame Powder Coated colours is: "Ice". Standard door colours are: "Ice", "Black", "Rockpool", "Smoke", "White", "Skye", "Yellow", "Royale", "Forest" and "Cherry". Exact colour samples are available.

OPTIONAL EXTRAS:	The following can be supplied at an additional cost and, if included, will be specified in the quotation.
Stands:	Garment Collectors can be provided with stands with or without adjustable feet.
Sloping Tops:	Garment Collectors can be manufactured with a 150 mm high sloping top.
Three Point Locking:	The system increases the security of the door by providing locking in three positions.
End Panels:	For aesthetic appearance and to protect row ends, specifically designed end panels are available.
Installation:	We offer a full installation service for its products.

- **Health & Safety: Lockers must be firmly secured to wall or floor and fixed together in runs for safety purposes. If applicable, install in accordance with specific product instructions.**
- **All dimensions are nominal.**
- **To enable us to interpret your requirements accurately, please state at time of enquiry/order the choice of locker type, colour, locking and nesting arrangement and delivery requirement.**
- **The products described in this specification sheet herein are the subjects of patent, trademark, design and copyright protection or application thereof.**
- **In the interest of efficiency and service to our customers, the company reserves the right to modify the specifications of any of its products.**
