

SPECIFICATION SHEET: ***MINI MINDER Lockers***

Dimensions:

Doors	Height	Width	Depth
12	970mm	600mm	200mm
20	1190mm	800mm	200mm
28	1626mm	800mm	200mm
40	1845mm	1000mm	200mm

Strength and Security with Style

Sturdy Construction: Door frame constructed from heavy gauge mild steel of press formed channel section.
 Style: Attractive and functional locker design.
 Colour: Automated paint plant ensures consistent high quality finish in a wide range of modern colours.

Detailed Product Specification

Construction: Spot welded and pop riveted.

Material & Finish: Mild steel-stove enamelled (see Finish specification).

Door Frame Assembly: Comprising two uprights manufactured from heavy gauge mild steel of press formed channel section; top and bottom cross members which are designed to create door stops. Spot welded construction produces a rigid frame enabling door clearances to be maintained in accordance with British Standard requirements. The top cross member is provided with a series of ventilation slots.

Doors: Doors are attached to the right hand side of door frame upright with two 'five knuckle' semi-concealed hinges.
 Doors are fitted with a plastic escutcheon plate around the lock, which can also act as a name card/locker number holder.
 Two rubber buffers are fitted to the top and bottom corners of the door for quiet closure.

Locking: Standard options are either 10 disc tumbler cam lock in mastered suite with two keys to each lock or, at no extra cost, a latch lock for the user's own padlock (recommended padlock shank dimensions 6 mm).
 We can also supply, as an optional extra, a door-mounted combination lock with master key over-ride facility and user codes which can be reset.

Ventilation: Ventilation is provided by a series of unique ventilation slots in the top cross member.

Paint Finish: Five stage automatic degreasing and phosphating process to remove surface contamination. This base gives improved adhesion and humidity resistance. The paint is applied by high-speed electrostatic rotating bells, which are computer controlled to ensure the correct thickness of paint is applied. The component parts are then stove enamelled at the correct temperature to ensure a hard paint finish is achieved.

Colour Range: Standard locker frame Powder Coated colours is: "Ice". Standard door colours are: "Ice", "Black", "Rockpool", "Smoke", "White", "Skye", "Yellow", "Royale", "Forest" and "Cherry". Exact colour samples are available.
